How may we assist you?

Our goal is to make your travel on Omnibus Express a safe, pleasant and convenient experience. Our drivers, customer service personnel and contractors are available to meet the needs of customers with disabilities. We are available to provide any requested assistance which is reasonable. The types of assistance that we are more frequently asked to provide involve boarding and de-boarding, luggage, transfers, and storage and retrieval of wheeled mobility devices. This service is provided during transfers, meal and rest stops and other times as reasonably requested. We are happy to assist you whether you are traveling alone, using various wheeled mobility devices, or being accompanied by a service animal.

Keys to a Successful Trip

Assistance is available to customers with disabilities when they travel on Omnibus Express. There are four important steps that will help us serve you better.

1. Contact the Omnibus Express Customers with Disabilities Travel Assistance Line at 1-800-923-1799 as far in advance as possible. Omnibus Express will be better able to help you during your trip if we know in advance that you are coming and what your needs are.
2. When booking your trip in a terminal, notify the ticket agent if you need assistance and if you will be traveling in a wheeled mobility device. When booking your trip online, make sure to self-select as a passenger traveling in a wheeled mobility device if that is the case. If you purchase your ticket over the phone or through any other means, let us know that you are traveling with a wheeled mobility device.
3. Arrive on time for your selected schedule.
4. Inform Omnibus Express employees and contractors of your needs during your trip.

Assistance in Boarding and De-Boarding

Omnibus Express personnel can assist with getting on and off the bus, including help with luggage and storage and retrieval of wheeled mobility devices. Please ask your driver or a customer service representative at the terminal for assistance and remind the driver during your trip if you require assistance. Omnibus Express will grant all requests, which are reasonable and safe.

Storing and Handling Your Wheeled Mobility Device

If a customer decides not to travel in his/her wheeled mobility device, it may be stored inside the bus if it fits and can be safely stowed. Wheeled mobility devices that cannot be safely stowed inside the bus will be placed in the baggage compartment, if possible. You must ask a customer service agent for a claim check if your wheeled mobility device is stowed in the baggage compartment.

The maximum dimension of the baggage compartment is 33" x 33" x 48". The maximum weight limit for wheeled mobility devices is 200 pounds. Wheeled mobility devices that exceed these dimensions and/or weight limit will not be accepted. Please allow sufficient time for stowing any wheeled mobility devices. This will assist in preventing delays in the departure of the bus.

Traveling in a Wheeled Mobility Device

The combined weight of the customer and wheeled mobility device cannot exceed 600 pounds and the wheeled mobility device can be no more than 30 inches wide and 48 inches in height per manufacturer specifications for most buses operated by Omnibus Express. Omnibus Express strongly recommends that you contact the Travel Assistance Line at 1-800-923-1655 as far in advance as possible if you will be traveling in your wheeled mobility device. Each bus has limited seating capacity for all customers and can only accommodate two passengers traveling in wheeled mobility devices.

Traveling Alone

You may travel alone on Omnibus Express only if you are able to travel independently and do not require assistance of a personal nature such as help using the restroom, dispensing medication or constant care during travel. Omnibus Express is not required to provide this type of assistance. If you require assistance that we cannot provide, you may wish to include a personal care attendant (PCA) in your travel plans.

Assistance at Stops

Omnibus Express will assist you with any reasonable request during a stop. You should remind the driver or customer service personnel (if present) that you need assistance and the type of assistance you require.

Traveling With Your Service Animal

At Omnibus Express, customers with disabilities accompanied by a legitimate service animal are welcome. The service animal is the responsibility of its owner and must be under the control of its owner at all times whether by leash, harness or carrier. The service animal must ride in the bus within the customer's space. The service animal may not travel in the aisle or occupy a seat. Omnibus Express reserves the right to refuse passage to any service animal that poses a direct threat to the health and safety of other customers, Omnibus Express personnel or contractors.

Oxygen / Respirators / Medication

Portable oxygen and respirators may accompany you on Omnibus Express. A maximum of four (4) canisters may travel with the customer - two (2) aboard the bus and two (2) in the baggage compartment. The maximum dimension for each container may not exceed 4.5" H x 26" L. Customers are responsible for ensuring that they have enough oxygen to complete their travel and are responsible for making arrangements for refills while en route. Oxygen canisters stored in the baggage compartment must be in protective cases with safety caps on the valves.

Always keep your medicine with you on the bus. Do not put it in your checked baggage. Omnibus Express is not responsible for lost medication.

Advance purchase discount fares are non-refundable and may be upgraded to a walk-up fare for a charge of \$20 per transaction plus the difference between the advance purchase fare and the walk-up fare; provided, however, that if the walk-up fare is less than the advance purchase fare, no refund will be given.
